MEADVILLE NEWS.

Horse Raciso .- Considerable excitemen as been raised in town during the past hree days by two or three horse races, that ame off on Friday and Saturday. It was nounced in one of our local papers tha he races would be held under the auspic of the Meadville Driving Park Association ut such was not the case, and I hope for he credit of the Association that they will ever sllow as motley a crew of blacklogs and thieves as was gathered here on Satur day to have control of the grounds. Two three last horses are here, all belonging one gang, and a bet of \$100 will change he issue of a race, on five minutes notion May we never gaze on their like again.

Accident,-Another of the railroad murers, soothingly denominated accidents, oc urred at Bemustown, on Friday night, y which the conductor of a freight train, Mr. Canfield, formerly of Belo, N. Y., was instantly killed, and a brakeman named Barnes, badly bruised. I have not learned what the verdict of the coroner's jury was, whether one was called, but I hope the uilty party or parties will be ferreted out The socident was caused by a locomotive running into the caboose attached to freight train. FAIR.-The Annual Fair of the Crawfor County Agricultural Society is announce to take place on the 27th, 28th and 29th o September. As yet, however, no visible easures for preparing the grounds have been taken by the officers, and it is time something was done. I hope more interes of the matter is briefly as follows: He will be taken by the people of both town and country than his been for the past few years. The receipts of the last Fair were larger than ever before, yet there was so tually nothing to be seen excepting the

crowds of people.

The fast horsemen now have a track of their own, and there is no reason why our agricultural fair should be turned into a a horse show any longer. The first few fairs were excellent, better than many State Fairs I have visited; but jockeys got hole of the thing, and away went our agricul tural fairs. In refreshing contrast to this is the annual fair held at Conneautyille hrough the train, detected the man, but is the annual fair heid at connection to the had disguised himself somewhat, was which has been in operation thirteen years, not quite certain of his identity.
